Bill for a World Legislative Act

ACTIVATION OF WORLD BOUNDARIES AND ELECTIONS ADMINISTRATION

Summary: Activation of the World Boundaries and Elections Administration

Date and place:

World Legislative Law #

Short title: Activation of the World Boundaries and Elections Administration

The Provisional World Parliament:

Considering:

That to move to the First Operational Stage, an important step is, in a general referendum (following Article 17.1.6), the ratification by fifty (50) to one hundred (100) World Electoral and Administrative Districts (WEADs) (According to Article 17.3).

That this requires a robust, secret, and transparent universal voting system; a robust and reliable global voter database; and a single universal ID system.

That the World Elections Commission has developed a global plan for defining and delimiting World Electoral and Administrative Districts (WEADs), as well as a set of rules for election processes.

That the World Constitution establishes the World Boundaries and Elections Administration (Article 8.3) to fulfill these and other important functions.

That Article 19 of the Earth Constitution authorizes the Provisional World Parliament to undertake actions corresponding to the First Operational Stage, among which is the activation of the World Boundaries and Elections Administration.

That the World Service Administration (WSA), since its founding in 1953, has focused on issuing documents such as the World Passport, the World Identity Card, and other certificates for global citizens, and has been developing the foundations for a universal, secret, and transparent voting system, a global voter database, and a universal ID system.

That currently there is a Memorandum of Understanding between the World Service Administration (WSA) and the World Constitution and Parliament Association (WCPA), which seeks to integrate both organizations in the service of humanity, mainly in everything that can promote the massive ratification of the Earth Constitution by the citizens of Earth through development of the World Electoral and Administrative Districts (WEADs), defining and delimiting the 1,000 WEADs provided for in the Earth Constitution; having a database structure and operating it for the ratifiers of the Constitution; providing a Universal Unique Identification for each citizen of the Earth; actively promoting the registration of citizens through massive outreach campaigns; developing a universal, secure, reliable, transparent online voting system so that global citizens can express themselves with a secure vote; and organizing, promoting, coordinating, the acts of voting at the level of the WEAD, for the ratification of the Earth Constitution and the election of the Electoral Commission and the representatives before the House of Peoples of the World Parliament.

The delegates of the 16th Session of the Provisional World Parliament proclaim the following law:

The Presidium of the Provisional World Parliament is hereby authorized to promote with the WSA the terms of an agreement so that this organization, once it has ratified the Earth Constitution, will assume the duties of the World Boundaries and Elections Administration, under the power of the Provisional World Parliament, and proceed to convene all world democratic organizations that have proposals to develop within the scope of the aforementioned World Boundaries and Elections Administration.

Article 1. World Administration of Limits and Elections.

The WBEA is hereby activated with the powers described in Article 8.3 of the Earth Constitution.

The WBEA must (1) define the boundaries), (2) make periodic adjustments according to demographic changes, (3) define detail procedures of nomination and election to the World Parliament, (4) conduct elections to Houses of Peoples and Counselors (not to the House of Nations), (5) prepare Voter's Information Booklets on candidates for election, (6) define the rules for political parties, (7) define the rules for referendums, (8) conduct plebiscites, and (9) conduct a census every five years.

Article 2. Memorandum of Understanding with World Service Authority (WSA).

While the WBEA is activated, the WEC will continue to assume its functions.

The Memorandum of Understanding (MOU) signed on May 3, 2023, which is attached, is hereby validated.

With this Memorandum, the bases are established to have a Global Voter Database structure for the ratifiers, to have the capacity to provide a Universal Unique Identification for each citizen of the Earth, to actively promote the registration of citizens through massive outreach campaigns, to define and delimit the 1,000 WEADs provided for in the EC, to have a safe and reliable online voting system worldwide and to organize, promote, coordinate, the acts of voting at the level of the WEAD, for the ratification of the EC and the election of the WEADs Election Commission and the representatives before the House of Peoples of the

World Parliament. Both organizations, ECI-WCPA and WSA, maintain their legal personality and independence of action.

Article 3. Infrastructure to be developed to facilitate elections worldwide during the provisional stage.

During the Provisional Government, work is carried out on the basis of voluntary work and contributions from members.

For the purpose of this Legislative Act, define the WEADs, means simply define how many there are in each region and geographical spaces.

Delimit them, means to place them within each region, establish the limits.

Activate them: means to constitute the Provisional Promoting Team and begin the election process.

To create the Infrastructure to be developed for elections, a technological platform will be stablished, composed of four fundamental elements:

1. A Universal Identification System and a Universal Unique Identification.
2. Definition and delimitation of WEADs.
3. Global Voter Database, eighteen years of age or older (Art. 5.3.2), by WEAD.
4. A World Elections System.

3.1. Unique Global ID System

The provisional Universal Unique Identification ID is 24 digits long.

- ✓ Three for the country of residence (data that will not be public, only for administrative management). It will be used the code ISO 3166-1 numeric;

- ✓ Three for the Electoral District (it will be used the numeration 000 a 999 approved by the WEC); and

- ✓ Six (00.00.00 Day.Month.Year), birth date.

- ✓ Twelve digits are randomly generated from among available registry numbers for the Universal Unique Identification of each person.

During the Provisional Stage, the code will be generated manually by the WEC.

When possible, it will be defined a method to determine that the person registering is not a robot, has not already been registered and is a real natural person. For example: “identity verification” or “KYC (Know Your Customer) procedures.”

3.2. Delimitation of Electoral Districts

The numbering approved by the WEC will be used, from 000 to 999.

Provisional World District Numbering Plan.

In order to facilitate the formation of WEADs in this provisional stage, it will be used provisionally the following five digits:

NN – MMM

NN: two digits, for the Region of the World (01 to 20).

MMM: three digits, consecutive number within each Region, assigned independently by each Region, beginning from 1 in every Region.

When possible (if Districts in the area are defined and delimited), the final numbering will be used (000 to 999).

3.3. Global Voter Database

An Excel or similar database will be used for each WEAD, held by the WEC.

The record will include, at least:

a. Prefix
b. Names (first names)
c. Surnames (last names)
d. World ID
e. Address (complete)
f. Contact phone number (with country code)
g. E-mail
h. Document type of ID in the residence country
i. Document number of ID in the residence country
j. Occupation
k. Volunteer? (Want to be a volunteer?)
l. Confirmation of ratification of the EC (Yes / No)
m. Country of residence
n. Birthdate (day / month / year).

3.4. World Elections System

During the period of the Provisional Government, an ad hoc computerized system provided by the WEC will be used.

A system developed by the elected authorities of the WEAD may also be used, provided it is approved by the WEC.

Article 4. Budget

The WBEA (or the WEC in its place if the WBEA has not been duly established) will prepare an annual budget to be presented to the PWP sessions, including proposals for the operation of each WBEA program and, in particular, a budget for elections. The PWP may make adjustments to budget requests to efficiently strengthen the overall program of the Earth Federation. Following the PWP's approval of the budget, the World Treasury Central Bank will disburse funds monthly to the WBEA for its operations. In the absence of such a Bank, the PWP will seek alternative methods.

The WBEA will submit budget requests and report on expenditures in credits or Earth currency, when possible.

Article 5. Reporting

The WBEA shall make an annual report to the PWP and to the Presidium.

Article 6. Further Provisions

The PWP may at any time further define the responsibilities, functioning and organization of the WBEA, consistent with the provisions of Article VIII and other provisions of the Earth Constitution.
