Once the Assembly is convened, the delegates will elect two additional chairpersons, completing a team of five delegates for the V-WCA Standing Executive Cabinet.

Until the Assembly has permanent funding, the Standing Executive Cabinet will oversee the staff, both paid and volunteer.

The Standing Executive Cabinet is created for the purpose of:

- ✓ Collecting proposals for agenda items for the V-WCA Session, consolidating them, and making a proposal.

Article 4. Functioning of the Assembly

The first activity will be the verification of credentials.

The term of office for officers is one full session, with the possibility of reelection in subsequent sessions.

The Assembly can function with a minimum quorum of 100 delegates, with a daily quorum of 60% of those accredited present. Final approval of the Constitutional text requires at least 500 signatories, via an online form.

The sessions are held in a hybrid format: in-person and online, with electronic voting through a digital platform.

Once the participants and observers have been accredited, the Chairperson will open the session and submit the proposed agenda for approval.

Then, the agenda items will be discussed, which must include, as applicable, at least the following points:

- ✓ Extend a call to all nations, communities, and peoples of the Earth to ratify the Earth Constitution (Article 19.1.1).

- ✓ Review the Constitution for the Federation of the Earth and consider possible amendments according to the established procedure.

Article 5. Chambers of the Assembly

The Assembly shall have two chambers:

- Chamber of Peoples: individual delegates.
- Chamber of Nations: representatives appointed by nations.

Decisions shall be adopted by a simple majority in each chamber, unless otherwise provided (qualified majority for special provisions). On the first day of session, the voting weight of each chamber shall be determined.

Article 6. Deliberation and Presentation of Proposals

Amendment proposals must be submitted 60 days prior to the Assembly or, at the latest, on the first day if they do not exceed 35 words.

The proposal submitted by the Legislative Review Committee will be considered the initial proposal.

Three deliberation mechanisms are established:

- Groups on the Provisional World Parliament website and/or social media (WhatsApp, Telegram) for discussion and coordination.

- Videoconferences (Zoom, Google Meet) for general deliberations and voting.

- A digital platform for presentation, deliberation, and official voting.

In online sessions, the Chairperson will grant the floor, in the order in which they are requested, to the delegates entitled to speak. The Chairperson will periodically read out the names of the following persons listed.

The Chairperson will deem any participation that is not clearly relevant to the matters defined in the agenda inappropriate.

Each proposal will have a single reading, with 3 minutes for presentation and up to 7 minutes for clarification.

The debate on merits will occur only after acceptance by a simple majority.

Deliberative priorities will be determined by universal voting audited by the Standing Committee.

Voting will be carried out only electronically. Voting will be open for several days after the conclusion of your readings. After the vote, but before deliberations begin, the Standing Executive Cabinet will post a spreadsheet to the Assembly to audit the results of the score sheet.

Voting by proxy is prohibited and each delegate will have only one vote.

Questions of procedure, including these Rules of Procedure, will not be debated at sessions. During sessions, the Chairperson's decisions are final on the procedural conduct of the Assembly.

Robert's Rules of Order will supplement these Rules of Procedure, but will not supersede them on any point of possible variation.

Article 7. Consideration Criteria

The business of the World Constituent Assembly shall be limited to the consideration, deliberation, and action on constructive amendments to the Constitution for the Federation of Earth and other topics given in Article 4.

- Improve legislative implementation, ratification, and accountability.

Proposals that reduce legislative power, eliminate chambers, establish military forces, or eliminate fundamental branches will be rejected.

The delegates shall give special consideration to strengthening of the Bill of Rights of the Constitution for the Federation of Earth, to strengthening of the World Parliament by increasing its accountability, and to the clarification of the relationship of the World Government to the United Nations Organization and related agencies, which are to undergo transfer, reconstitution and integration by the World Government in conformity with the Constitution for the Federation of Earth. Also shall also give special consideration to amendment proposals to improve the implementation and ratification process.

Article 8. Discipline and Procedures

The Standing Executive Cabinet may expel obstructive participants by a two-thirds majority.

Robert's Rules of Order supplement these rules, but do not replace them.

The Standing Executive Cabinet meets daily to adjust the agenda and publishes daily activity reports and a list of participants.

Article 9. Finances and Transparency

The Treasurer reports income and expenses before the second-to-last day of the session.

The Assembly cannot be adjourned until all legitimate expenses have been paid.
